EDUCATION

RV Institute of Technology and Management

CGPA 8.97

B.E. in Computer Science and Engineering

Nov. 2022 - Present

Jyothy Kendriya Vidyalaya composite PU college

Grade: 92

Grade 12

Jun. 2020 - Apr. 2022

EXPERIENCE

Snapchat Opinion Leader

Sep. 2023 - Dec.2023

Snapchat

- Designed and developed engaging Snapchat filters and lenses using Lens Studio to enhance user experience and creativity.
- Collaborated with brands to create custom lenses based on trends and user interests, while analyzing engagement and feedback to optimize filter effectiveness

Projects

Blockchain enabled Payment Interface | React, Python, Flask-SQLAlchemy, Steller

May 2024 - June 2024

- A blockchain-enabled payment interface integrating Aadhaar for secure and verified transactions, enhancing transparency, and reducing fraud.
- Project Link

ISL Real-Time Translator | Python, OpenCV, MediaPipe, TensorFlow/Keras, Flask, Flutter Oct 2024 - Present

- Developing a system to translate Indian Sign Language gestures into text phrases in real time.
- Used MediaPipe for face and hand landmark detection and OpenCV for video processing.
- Employed an LSTM model for temporal gesture recognition.
- Built the backend with Flask and developed the mobile application using Flutter.

Medication Management Application | Python, SQLAlchemy, Pytesseract, Figma, Flutter Aug. 2024 - Present

- Implemented features for prescription uploads, personalized reminders, and medication adherence tracking.
- Integrated educational resources on side effects and benefits.
- Developed a database for storing prescription images, utilizing Pytesseract for automated extraction.

Airplane Reservation System | C, Data Structures, HTML, CSS

Aug. 2023 – Aug. 2023

• Facilitates reservation and cancellation of airplane tickets based on availability, using linked lists

Budget Tracker | Java(Swing)

Aug. 2023 – Aug. 2023

• Enables user to monitor and manage personal finances effortlessly with help of simple UI.

CERTIFICATIONS AND ACHIEVEMENTS

Hackathon Finalist

May 2024 – July 2024

• Finalist in FantomCode-24 and amBITion-24, national 24-hour hackathons, showcasing problem-solving, teamwork, and technical skills under tight deadlines

Java Programming, NPTEL

Jan. 2024 – Apr. 2024

• Completed NPTEL certification course in Java programming, focusing on object-oriented concepts and algorithm design.

Google Data Analytics Professional Certificate

May 2023 - Nov. 2023

- Earned 8 Coursera certifications in Data Analytics, specializing in data visualization, statistics, machine learning, and tools like Excel, SQL, Python, and Tableau.
- Certification Link

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, R

Frameworks: React, Node.js, Flask, Flutter, FastAPI

Tools: Git, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Figma, Tableau

Libraries: pandas, NumPy, Matplotlib, OpenCV, TensorFlow/Keras
